

DisplayPort Cable

Optical Fiber 8K AOC Cable

Part no. AT-DPAOC-MM-30

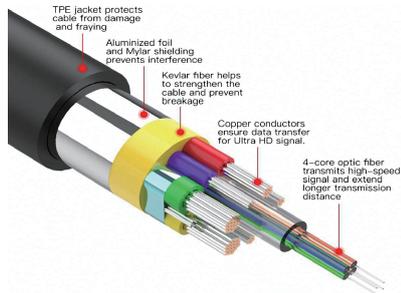

DisplayPort V1.4

8K @ 60Hz Video

High Resolutions and Faster Refresh Rates.
Both uncompressed and compressed bandwidth are supported and enable to deliver a full range of features.

ACTIVE

8K Fiber Optic DisplayPort Cable, Long Active Optical Cable(AOC) 8K@60Hz

- Displayport to Displayport cable 30Meters supports High-speed 32.4Gbps, 8K@60Hz, 4K@120Hz, HDR, HDCP, DSC 1.2a etc. Backward compatible with DisplayPort 1.3, 1.2.
- Compared with the traditional copper core cable, faster transmission speed, less signal attenuation, stronger resistance to electromagnetic interference, more slimmer and flexible, longer service life, is the future direction of cable development.
- Compatible with All Standard DP Ports -- Fiber optic displayport cable is compatible with Odyssey G8/G9, Ben Q, Dell, LG, HP, ASUS, Acer, iiyama monitors etc,

User Interface

Input DisplayPort Male
Output DisplayPort Male

Noted

Unidirectional Transmission -- Fiber displayport cable is one-directional transmission. The plugs at each end are marked "SOURCE" or "DISPLAY". The "SOURCE" plug connects signal source devices such as PC, laptop, graphics card etc. The "DISPLAY" plug connects display end devices such as TV, monitor, projector etc. Please make sure you plug in each end correctly, you will not get signal from the device.

Transmission Speed

32.4 Gbps

Physical Characteristics

Colour Black
Cable Length 30 Meter

Resolution

Support HBR3, DSC 1.2, HDR10, support 8K@60Hz, 4K@120Hz/165Hz, 2K@144Hz, dp version is 1.4.

Warranty

1 Year
