## Revolutionising Performance: The Next-Gen Modular Compute for Yealink MeetingBoard Series

Yealink MCore-OPS-G2/MCore-OPS-G2T is the latest modular computing solution purpose-built for Yealink MeetingBoard Series/MeetingBoard Pro. Powered by the Intel Core Ultra 5 processor, it comes with upgraded RAM and SSD, delivering enhanced computing power and efficient graphics performance—allowing you to run multiple applications smoothly and without lag.

The OPS Gen 2 also supports seamless 4K content sharing via HDMI-IN, enabling a more fluid and collaborative experience. With CEC support, the device can automatically wake the connected display, eliminating the need for manual operation.

Designed with an embedded structural form factor, the MCore-OPS-G2/MCore-OPS-G2T requires no external components, significantly simplifying installation and deployment.

## **Key Features and Benefits**

- Boosted processing power with Intel Core Ultra 5 (built-in NPU 34 TOPS)
- More RAM and SSD to handle multitasking and large files with ease
- Seamless 4K Casting via HDMI-IN

- Built-in EDID module, CEC support
- Enterprise-grade security with TPM 2.0 support
